

# THE ROUND

## Investment One-Pager & Terms Summary

|                |                                                   |
|----------------|---------------------------------------------------|
| Raise Target   | \$300,000 USD                                     |
| Stage / Type   | Seed / Pre-Series A                               |
| Structure      | SAFE (Valuation Cap with Discount)                |
| Valuation Cap  | \$6,000,000 USD                                   |
| Minimum Ticket | Individual investor allocations from \$30,000 USD |

**Milestone Framing:** *Not simply to fund growth. To turn early market validation into infrastructure scale.*

## Selective Close Strategy

We are looking for strategic partners who can actively accelerate our carrier network access, operational scale, and institutional relationships — not just supply capital.

## Target Growth Metrics (Today → 18–24 Months)

| Metric                         | Today                                             | 18–24 Months Target                           |
|--------------------------------|---------------------------------------------------|-----------------------------------------------|
| Insurers /Programs             | Advanced negotiations on implementation; <b>4</b> | <b>12+</b>                                    |
| Events / Claims Processed      | 200 / month                                       | <b>105,000+ / month</b>                       |
| ARR (Annual Recurring Revenue) | \$125.000                                         | <b>\$9,200,000+</b>                           |
| Gross Margin                   | 8%                                                | <b>32%</b>                                    |
| Active Markets                 | (Latam & US)                                      | <b>4+</b> (US Big Expansion & Regional Scale) |

## Use of Funds

- **40% — Technology & AI Orchestration:** Core workflow engines, automated claim processing, and predictive service dispatch.
- **25% — Enterprise Insurance Integrations:** API connectors for legacy core insurance platforms and partner systems.
- **20% — Provider Network Scale:** Expanding regional operational supply and assistance provider integrations.
- **15% — U.S. Expansion & Corporate Structure:** Regulatory, legal, and commercial entry into target U.S. verticals.
